particulars, separate shipping bills being, however, taken out for dutiable goods.

Shipment of free cargo.

8 Free cargo may be shipped at any time, day or night, except on Sundays or holidays, without special permission or supervision: provided that no goods shall be shipped at night without supervision except such as have been waterborne for shipment during ordinary working hours.

Duties of Customs officers in respect of shipping bills, manifests, etc.

13. After the original and duplicate have been compared and checked with the triplicate shipping bills for dutiable goods, and the duplicate shipping bills for free goods, the different parts of the duplicate manifest shall be sent by post, together with the corresponding duplicate or triplicate shipping bills, as the case may be, to the Customs Collector at the ports to which they respectively relate, and the original export manifests shall be retained for use in conjunction with the original shipping bills in recording export statistics

Provided that at ports of call where the extract from the Cargo book to be put in under rule 14 or a list of the cargo is handed to the Customs officer on board, or accompanies the goods ashore, as boat-notes or duplicate extract from the Cargo book need be insisted upon.

Conditions as to discharge at ports in Bengal, Bihar and Orissa and Madras Presidency

16. At ports in Bengal, Bihar and Orissa and the Madras Presidency discharge may be commenced as soon as the vessel drops anchor when free cargo may be landed at any time, day or night, without special permission or supervision, but no cargo from any foreign port and no cargo from any Customs port, which was transhipped from a foreign port, shall be discharged except under the written authority of the proper officer of Customs.

At other ports discharge may be commenced as soon as the vessel drops anchor and cargo, whether dutiable or free, may be landed at any time, day or night, except on Sundays and holidays, without special permission or supervision, except in respect of work at wharves where supervision may be necessary out of hours: provided that the Agents shall be responsible that dutiable cargo shall be severed by separate boat-notes or lots if the cargo is discharged by boat and stacked separately on the wharf, and that it shall only be delivered on production of bills of entry duly passed by the Customs Department, and on payment of any duty that may be due upon them.

Bills-of-entry

18 These bills-of-entry shall be in the usual form for goods imported by foreign-going vessels, and shall be granted upon the extract from the Cargo book filed at the Custom House as required by rule 14, after check, if the goods are said to have come from a Customs port, with the shipping bills filed with the extract.

Note.—See note to rule 14.

19. Free cargo may be removed by the owners as soon as it has been checked off on the extract from the Cargo book furnished for the purpose, or cargo-list, or boat-notes, as contemplated in rule 15; when the cargo has not been checked off on the original extract from the Cargo book, the cargo list, duplicate extract or boat-notes, used for the purpose, as the case may be, shall be retained for subsequent comparison with the original extract from the Cargo book. This rule does not apply to ports in Bengal, Burma and Bihar and Orissa.

Separate entry for transhipment.

23. The particulars of all cargo discharged for transhipment shall be entered by the Customs officer on board the discharging vessel or, if there be no Customs officer, then by a responsible officer of the ship in a boat-note or boat-notes with counterfoils, and no such cargo shall be received on board without a boat-note, which shall be endorsed by the receiving officer in the same manner as a shipping bill.

ENCLOSURES.

(1)

Letter from P. MACQUEEN, Esq., I.C.S., Collector of Ramnad, dated the 25th March 1927, D Dis No 1612-27.

I am not altogether in favour of the Bill. The hereditary system involves not only careful departmental enquiry in making appointments, but litigation in addition to that.

2. The ideal system is the selection of headmen, etc., on strict principles of heredity, always provided the candidates are properly qualified to do the work.

3. I would further allow the registration of minors, on the analogy of Act III of 1895.

4. Such measures which are largely in practice now and which can be made still stronger by strict executive rules will entirely obviate any unseemly scramble for vacancies.

(2)

Letter from H. R PATE, Esq., I.C.S., Collector of Malabar, dated the 4th April 1927, D. Dis. No. 3236/27.

In this district members of the family of the last holder have a preferential claim to appointment as village officers, and senior members are preferred to juniors. On the other hand, if the last holder's appointment was terminated in circumstances which render it undesirable to appoint any member of his family, or if there are no suitable candidates in the family, any suitable outsider may be appointed. A junior member of the family may be preferred to a senior, if good reasons are shown. The system may be described as 'family preference tempered by selection'.

2. I see no advantage but every disadvantage in exchanging this system for one of strict hereditary succession. In the present stage of political development to go out of the way to create new hereditary posts appears to me a reactionary policy. The system in force in this district is a happy compromise between the claims of heredity and efficiency; a system of pure heredity would inevitably lead to a lowering of standards. Outside perhaps the circle of office holders, there is no demand for the change proposed; on the contrary I have little doubt that it would be generally most unpopular.

3. There is, further, one practical difficulty which is peculiar to this district. A man's heir under the Marumakkathayam system (and the very great majority of the village officers are subject to this law) is the eldest surviving male member of his tarwad, whose reasonable expectation of life may be only very slightly superior to that of the person whom he succeeds. The application to Malabar therefore of a strictly hereditary system would often mean a continuous succession to office, at short intervals, of middle-aged and even elderly persons.

4. The present system enables the revenue officers to maintain and even to improve the standard of village administration; for the reasons which I have given, a system of strict heredity could only produce deterioration. I am, therefore, opposed to the introduction of such a system.

(3)

Letter from B. H Ellis, Esq., I.C.S., Collector of Madura, dated 14th April 1927, D. Dis. No. 3274–27.

All the offices of headman and karnam are already hereditary in this district except in Kodaikanal taluk, where some are hereditary and some are not It would greatly simplify matters if all were made hereditary and I see no objection to doing so.

Even in districts such as Malabar and South Kanara where the offices are non-hereditary, the principle of heredity is as far as possible applied in every case. I see no objection to giving legal sanction to the practice

(4)

Letter from H. S. Sheild, Esq., M.A., I.C.S., Collector of Tanjore, dated the 18th April 1927, D. Dis. No. 1821–27–A.

I do not agree with the premises. There is nothing in itself desirable in uniformity of tenure, and in fact there are differences in almost all forms of tenure from district to district, based upon various reasons. Such differences are the foundation of local patriotism There is nothing in itself undesirable in competition for posts under the Crown, described in the objects and reasons as 'the unhealthy scramble for office.'

2. If uniformity is desired, it would be better to abolish the hereditary character of offices where such exists. This is a real anachronism and the tendency is now to replace such succession to public offices by selection or by election. Hence in my opinion the Bill, if passed, would be a retrograde step.

3. The Bill proposes to confer valuable public property, viz., the emoluments of office, upon certain persons and their heirs to the prejudice of the remainder of the community. I do not propose to enquire what these persons have done to deserve this boon; it is open to the State to transfer property among its subjects at its will. I may, however, remark that the Act of 1895 did not create any fresh property in offices but merely specified that such offices as were hereditary should remain hereditary subject to its regulation.

(5)

Letter from M.R.Ry. Rai Bahadur U. Rama Rao Avergal, B.A., Collector of Kurnool, dated 18th April 1927, L. Dis. No. 970.

There are no non-hereditary headman and karnam offices in this district.

2 The Revenue Divisional Officers of Kurnool and Markapur are in favour of the Bill, while the Revenue Divisional Officers of Nandyal and Dhone are not. I agree with the latter for the reason that the hereditary nature of village offices has been responsible for a good deal of slack work as the incumbents feel that they have a valid right and it is not very easy to oust them and replace them by competent strangers. In many cases the hereditary nature of the village offices is found to be a handicap in selecting a proper candidate A 'scramble for office,' far from being unhealthy, as the mover of the Bill seems to think, will ensure the best men being selected. I am therefore opposed on principle to village offices being hereditary and in any case it seems unnecessary to introduce the hereditary nature where it does not already exist.

(6)

Letter from A. G. Leach, Esq., I.C.S., Collector of North Arcot, dated 22nd April 1927, Rel. No E-1-3853 of 1927.

The only part of this district where village offices are not hereditary is Tiruppattur taluk, which was formerly in Salem district. The Sub-Collector (Mr. Ramalingam) says that "the holders of these offices regard them as stepping stones to other and more valuable appointments and do not display personal interest and responsibility in their work which would be the case if the offices were placed on a hereditary basis"

I do not entirely accept this generalization; if the right sort of man is selected for appointment as village headman he will not want any other appointment, and the tendency of karnams to seek other appointments (if by this is meant clerkships in Government service) could easily be resisted.

There are obvious advantages, from the point of view of the appointing officer, in freedom from the trammels of heredity. The question is whether in fact it is difficult to find respectable residents willing to take up the duties of a village officer whether resignation or dismissal is in fact frequent and whether the work is in fact done any worse by Tiruppattur village officers than by others.

(7)

Letter from C. F. Brackenbury, Esq., I.C.S., Collector of the Nilgiris, dated the 22nd April 1927, D. Dis. No. 1002,27.

In the objects and reasons for the Bill to be introduced it is stated that it is desirable in regard to the offices of village headmen and karnams that there should be a uniformity of tenure throughout the Province. I do not think that this is self-evident. Where the hereditary system does not exist, I know of no cogent argument in favour of its introduction. To introduce the hereditary system where it does not exist is to narrow the field of selection which must result in the loss of efficiency.

2. Further, the conditions in this district are unusual In Gudalur taluk all the karnams and some of the manigars belong to Malabar and it would not be justifiable to make these village offices hereditary nor is it likely that other members of their families would be willing to take up the posts In the plateau the manigars are almost all Badagas, a hill tribe peculiar to the district My opinion is that they would not appreciate their office being made hereditary. The Badaga inhabitants of an entire village reckon themselves to be related to each other and the idea of restricting the succession according to the law of primogeniture would be meaningless to them. The karnams of the plateau are to a great extent imported from other districts, the few Badaga karnams being rather incompetent.

3. My conclusion is that, in order to preserve the present standard of efficiency among the village officers of this district, which is not high, it is necessary to retain the power of appointing to a vacancy the best candidate available and not to

hamper the administration by the introduction of a system which is alien to the district and is not desired by the people

(8)

Letter from F. L. BOURDILLON, Esq., I.C.S., Collector of Salem, dated the 23rd April 1927, No. D. 3197/27.

I strongly recommend the introduction of the hereditary system. As it is, the principle is mutually followed *ceteris paribus* as far as possible in this district. The proposed system is likely to result in a large reduction of work in appeals and in a diminution of that 'mud-slinging' which is too often evoked by open competition for these posts and which must certainly cause ill-feeling.

(9)

Letter from E. M. GAYNE, Esq., I.C.S., Collector of South Kanara, dated the 22nd April 1927, D. Dis. No. 2630/27.

The introduction of the hereditary system will have the following advantages. It will enable Government to secure a body of village officers who, in spite of the paucity of their pay, will nevertheless discharge their duties satisfactorily on account of prestige attached to their hereditary offices. This applies with special force to potails (headmen) who come from rich and respectable families and whose position in the village should be such as to command influence and respect among the villagers. If the offices are made purely non-hereditary, these officers will wield far less influence than they do now. It is also likely that mercenaries appointed under the non-hereditary system may have to depend entirely on their pay, and, this being scanty, they will have either to live below the standard than men of their position are expected to live or to take recourse to illegal means of earning money. Again, in hereditary offices the father trains the son and the uncle the nephew with the result that, when a nominee enters on his office, he does so with a good deal of practical knowledge of the duties that he has to discharge. Lastly, as pointed out by the Member of the Legislative Council himself, the wild scramble for office will disappear if the offices are made purely hereditary.

2. The hereditary system has, however, its own disadvantages. In making appointments, the scope of selection being limited, it will not be possible to get always the best men. Secondly, hereditary village officers strike strong roots in the soil and often do high-handed acts which are difficult to detect owing to their influence in the villages. Thirdly, hereditary offices often lead to minorships. The guardians of the minors nominate deputies after receiving large sums of money from them. This trafficking of offices leads to unhealthy competition and is opposed to public policy.

3. In this district, however, a compromise between the two systems has grown up. The hereditary principle is generally followed in making appointments to these offices though not enjoined by law. But, although suits may not lie, yet the number of appeals and revision petitions allowed are such that any man with reasonable claim is likely to get justice.

4. Thus, as things stand at present, the system followed in this district has all the advantages of the hereditary system and is free from some of its most objectionable features. The object of the Bill is said to be, to have uniformity of procedure throughout the Province, but uniformity is not desirable when it goes against local custom and when the advantages of the change are not so apparent. No doubt, the Bill, if passed into law, will make the position of the village officers more secure; but there is no sign in this district that the village officers are in need of this measure. I am, therefore, of the opinion that the proposed legislation is not desirable so far as this district is concerned.

Letter from C. A. SARTEE, Esq., I.C.S., Collector of Visagapatam, dated the 23rd April 1927, D. Dis. No. 1124/27-A-2.

There are no non-hereditary village headmen and karnams in this district. I am entirely opposed to the principles of this Bill. The hereditary character of village offices often acts as a very serious hindrance in selecting the most suitable persons to hold these posts. The only point in favour of making these appointments hereditary is that the family of the holder acquires a certain prestige in the village which is not without its value. But the principle is all against good work. The mere fact that a man knows that bad work is likely to result in his family being deprived of the office is a great stimulant to conscientious work.

(11)

Letter from P. C. DUTT, Esq., I.C.S., Collector of Trichinopoly, dated the 25th April 1927, D. Dis. No. 2707/27-C-2.

The two reasons given in the 'Objects and Reasons' for introducing the Bill are that there should be uniformity throughout the Province and that the unhealthy scramble for office whenever a vacancy occurs should be avoided. Both the reasons for changing the present system are inadequate and unconvincing. Want of uniformity is not doing any harm and the village officers in these tracts never having been hereditary they need not be made hereditary now for the sake of securing uniformity. If with a view to secure uniformity throughout the Province the officers are now made hereditary, it will affect the efficiency of administration. Efficiency cannot be sacrificed to uniformity. On the merits of the question, it is absurd on principle that a public office should be hereditary. In olden days when the state of the country was unsettled and the remuneration to village officers was by assignment of land, there might have been justification for the system of hereditary offices. But there is no such justification now. If the hereditary principle is introduced, the field of selection of officers will be very much restricted and all but who are absolutely incapable will have to be appointed as village officers on the occurrence of a vacancy. Nowadays more work is expected of a village officer and his work is more exacting and strenuous than formerly. It is more and more necessary that none but competent persons should be appointed as village officers. As regards scramble for village offices, there is not more of this for other offices, indeed very much less.

2. In the circumstances explained above, not a single valid argument, can, in my opinion, be put forward for making the offices hereditary.

Indeed, later on, I think, the Government will be compelled by circumstances to abolish the hereditary system of village offices wherever it exists.

The Board has consulted eleven Collectors regarding the Bill.

Copies of their reports containing their opinions have been submitted to Government with Board's Reference No. C. 2299/27-, dated 27th May 1927. The Collector of North Arcot has since submitted a further report, a copy of which is herewith submitted.

2. All the Collectors consulted except Mr. Ellis (Madura) are against the Bill. The objections generally raised are—

(1) It would narrow the field of selection and result in loss of efficiency.

(2) At the present stage of political development it would be reactionary to confer hereditary rights to office upon certain persons and their heirs to the prejudice of the rest of the community.

(3) In former days when the state of the country was unsettled and remuneration to village officers was by assignment of land there might have been justification for the system of hereditary offices but there is no justification now

(4) The principle of heredity is against good work. The mere fact that a man knows that bad work is likely to result in his family being deprived of the office is a great stimulant to conscientious work.

(5) The hereditary system gives rise to minorships and unhealthy competition for the post of deputy.

(6) The work done in non-hereditary areas is not in any way worse than that done in hereditary tracts. The test to be applied to the Bill is whether it is likely to make for greater efficiency.

(7) Want of uniformity of tenure cannot in itself be made a reason for the introduction of the Bill. It is not possible to make all services uniform. The difference in tenure is the result of local custom of long standing and it is unsound in principle to recognize rights which have never existed. It would be more desirable to secure uniformity by the abolition of the hereditary principle or at least of its most objectionable feature, the rule of primogeniture.

(8) Mere competition for office cannot in itself be regarded as a reason justifying the Bill. The 'scramble' in this case far from being unhealthy tends to ensure that the best man is selected. The scramble for office in fact seems to be more marked in hereditary tracts than in non-hereditary tracts. The provision made for suits for office and emoluments in hereditary tracts causes keen litigation among rival claimants.

3. Apart from the general objections the Collectors of Malabar and the Nilgiris urge certain practical objections so far as their districts are concerned. The Collector of Malabar points out that the heir under the Marumakkattayam law is the eldest surviving male member of the tarwad, whose reasonable expectation of life is only slightly superior to that of the person whom he succeeds and that the application to Malabar of a strictly hereditary system would often mean a continuous succession to office at short intervals of middle-aged and even elderly persons.

The Collector of the Nilgiris states that in Gudalur taluk all the karnams and some of the monigars belong to Malabar and that it would not be justifiable to make these offices hereditary as it is unlikely that other members of their families would be willing to take up their posts. In the plateau the monigars are almost all Badagas, a hill tribe, the members of which regard themselves as related to each other and to whom the idea of restricting succession by primogeniture would be meaningless.

4. The attitude of the ryots and the public towards the Bill in the districts chiefly concerned appears to be generally one of indifference except in South Kanara. The Collector of South Kanara reports that the public in his district desire legal recognition of the existing hereditary principle and that, if the Bill is to be passed, it will have to be suitably amended so as to legalize the prevailing rule of succession under Aliyasanthana and Marumakkattayam law. It is clear that there is no body of public opinion

behind the Bill and in fact it receives little support save from the village officers likely to benefit. It is perhaps pertinent to point out that the Bill does not refer to village menials. It is curious that the mover who adduced uniformity of tenure as one of the reasons for the Bill left menials out of account.

5. Special legislation would be necessary to substitute the systems of inheritance in general force in South Kanara and Malabar for the system of primogeniture recognized by Madras Act III of 1895. The results would be unfortunate and even disastrous. The present system in non-hereditary tracts is elastic and satisfactory—family preference tempered by selection. Good and efficient work tends to keep the office in the family; bad work does the reverse. There is therefore more incentive than under the hereditary system.

The present system excludes minor registry in non-hereditary tracts except in South Kanara, where it is said to be a special custom. There seems no reason to regret the absence of minor registry. Deputies are frequently unsatisfactory since they come to office knowing that their tenure is limited in time.

6. In view of the objections and considerations to which reference has been made, the Board is definitely against any legislation for the introduction of the hereditary principle to tracts where it does not already exist. It would be a retrograde step to go back in these days to a system which is an anachronism, in order to give to a certain class of people privileges which they have never had.

7. Copies of the reports of the Collectors dealing with the attitude of the ryots and the public towards the proposed Bill are also submitted to Government with reference to their Memorandum No. 702-C/27-5, dated 18th May 1927.

Secretary.

Letter from A. G. LEACH, Esq., I.C.S., Collector of North Arcot, dated the 28th May 1927, D. Dis. No. 3633.

In continuation of my report Ref. No. E 1-3653, dated 22nd April 1927, I submit herewith copy of a further report from the Sub-Collector.

SUB-ENCLOSURE

Letter from the Sub-Collector, to the Collector of North Arcot, dated the 26th May 1927, D. Dis. No. 2331.

[Bill—Bill to make non-hereditary village officers—Hereditary—Further report—Submitted.]

The posts of village officers of only Government villages of Tirupputtur taluk are non-hereditary.

Headman.—After the introduction of the system of village panchayat courts and the withdrawal of civil powers from the headmen, the office of headman is not so attractive as before. The introduction of the principle of heredity in the tenure is likely to serve as a set-off for the above.

Karnams.—As already reported, most of the karnams of the villages within a radius of five miles from Tirupputtur town resign their posts and seek employment as taksil clerks and clerks under mittadars. Further on account of the increase of panchayat schools, the posts of karnams are not attractive as the work of a teacher is light and limited when compared with that of a karnam. Besides this, private candidates for training in chain survey are seldom given admission in the survey class and as a result qualified hands for the karnam's posts are rare. Resignation by karnams are frequent and it is difficult to find respectable residents in the villages. If the posts of karnams are declared hereditary, there will be an incentive for the heirs to train themselves from their youth and get qualified before they attain majority, and the heirs of the office-holders will be also freely admitted and selected for training in preference to private candidates and I think this would put a stop to the existing dearth of qualified hands. The work of the karnams of Tirupputtur taluk is lighter than that of similar men in other taluks, and I cannot say that their work is less satisfactory than that of other village officers.

2. Resignation of their posts by headmen is not frequent but the resignation and removal of karnams are frequent and the Tahsildar attributes this to be due to the malarial nature of some of the villages. This could be avoided if the posts are made hereditary and local men are appointed. Further the posts of village officers in all the ryotwari villages and in two Government villages of this taluk (Chandarapuram and Vellakottai) are hereditary and in order to keep up uniformity with the rest of the district the Bill may be allowed to be passed.

Menials.—The original reference had no mention of menials and I have not said anything about them then. The Tahsildar suggests that to preserve uniformity the posts of menials may also be brought under the proposed law.

(2)

Letter from H. R. PATE, Esq., I.C.S., Collector of Malabar, dated Calicut, the 20th June 1927, Ref. No. E-2/5514.

The opinions, so far elicited from representative members of the public in two of the revenue divisions, are, with one exception, definitely opposed to the introduction of the provisions of the Bill in this district. The persons consulted comprise both jenmis and tenants.

I will report further as soon as I hear from the remaining Divisional Officers.

(3)

Letter from C. F. Brackenbury, Esq., I.C.S., Collector of the Nilgiris, dated Ootacamund, the 17th June 1927, D. Dis. No. 1587.

My enquiries go to show that the attitude of the ryots and the public generally towards the Bill is one of indifference. The Deputy Tahsildar, Ootacamund, reports that their attitude is generally against the Bill, the Tahsildar of Coonoor thinks that the ryots of his taluk are in favour of the Bill, while the Deputy Tahsildar, Gudalur, reports that no interest in it is taken by the ryots and the public of his taluk. As village conditions are identical in the Ootacamund and the Coonoor taluks it is unlikely that public opinion on the Bill can vary to any important degree and my conclusion is that it is not a factor that need be taken into consideration so far as this district is concerned.

(4)

Letter from E. M. Gawne, Esq., I.C.S., Collector of South Kanara, dated Camp, Kasaragod, the 23rd June 1927, D. Dis. No. 4486.

I have consulted representative gentlemen in all the taluks. All of them are in favour of the Bill though one or two have qualified their approval with some criticism. The majority of the headmen in this district are Bants who also form an important section of the ryot class. An association of this community called the Bant Advancement Association has unanimously passed a resolution supporting the Bill. It is therefore clear that the proposed legislation will be favourably received by the ryots and the public in general.

2. I would emphasize however that these gentlemen are not very actively concerned in maintaining a high standard of efficiency among village officers. They do not see that to adopt a system of primogeniture to a matriarchal system is far more of an anomaly than getting rid of a lack of uniformity in the Presidency. Why should there be uniformity between South Kanara and Virugapatam or Tinnevelly? The essence of the rule of primogeniture is that the father owing to natural affection should train his son in the office and the son should inherit his office and property. But the headmen in this district are mainly drawn from communities following the matriarchal idea, i.e., the Aliyasanthana or Marumakkattayam law of succession. The Bunts, the Jains, the Nayars and the Mappillas follow this law. There are some karnams also who belong to these communities. But the only law of succession recognized by Act III of 1895 in the case of the headmen and karnams in ryotwari tracts is the custom or rule of primogeniture governing succession to impartible zamindaris in South India. The application of the law of succession (i.e., of son inheriting his father's office) to people governed by a radically different system of inheritance with regard to property which prevails only in Malabar and South Kanara will effect a radical change in the existing usage and will not be popular. On the other hand, if the matriarchal idea is adopted for village officers, it will often be found that the next heir to a village officer will be nearly as old as he is, and, so far from having been trained up to do the work, will have been at daggers drawn with the headman of the family for years. Where there is any property in a family it is seldom that there is good will between the senior male and the next in succession. Nor, owing to the matriarchal system, are men more attached to their sisters' children than to their own.

3. I think really that the gentlemen consulted have only expressed their preference for the legal recognition of the existing hereditary principle. If the Bill has any chance of being passed into law, it will have to be suitably amended so as to legalize the prevailing rule of succession to village offices in Aliyasanthana and Marumakkattayam families.

The rule of succession is in fact adopted in this district but as explained in my letter, D. Dis. No. 1630, dated 22nd April 1927, with a degree of elasticity. If this elasticity is petrified by a legal enactment, it may result, as one gentleman has remarked, in a perpetuation of inefficiency.

(5)

Letter from H. S. Shield, Esq., M.A., I.C.S., Collector of Tanjore, dated the 25th June 1927, D. Dis. No. 7129.

Enquiries have been made by the Divisional Officers and Tahsildars. The public generally appear to be indifferent in the matter, but on the whole may be said to be against the Bill. The present village officers are naturally in favour of it.

2. I have nothing to add to the report already made in my D. Dis. No. 4321/27-A, dated 13th April 1927. The Bill is clearly a retrograde step.

(6)

Letter from H. R. Pate, Esq., I.C.S., Collector of Malabar, dated Calicut, the 25th June 1927, D. Dis. No. 5514.

I have since received replies from all my Divisional Officers and expressions of opinion from janmis and tenants in all the taluks.

2. The Divisional Officers are all strongly opposed to the Bill; they give reasons similar to those which I advanced in my letter D. Dis. No. 3236, dated 4th April 1927.

3. The opinion of the private persons consulted is divided. Palghat and Calicut seem to be in favour of the Bill; the rest of the district is generally opposed to it. One land-owner supports the Bill, but is opposed to conferring hereditary rights on the village officers now in office. Others who favour the Bill say that "uniformity is desirable" and that "it is but fair" that the offices should be hereditary in Malabar as in most other districts. I do not find any arguments of substance advanced by the supporters of the Bill.

(7)

Letter from F. L. Bourdillon, Esq., I.C.S., Collector of Salem, dated the 29th June 1927, D. No. 5855.

Of my five Revenue Divisional Officers four reported in favour of the Bill and my letter of

23rd April 1927 contains the gist of their views and I accepted and recommended them to the Board. But I subsequently made a point on my tours of asking the views of the smaller officials and non-officials on the Bill and as a result, after consideration, I wish to recall my opinion of 23rd April 1927 as some experienced Tahsildars are by no means in favour of the proposal and the villagers frankly know nothing about it and are quite indifferent. What really aroused my suspicion was the very cordial welcome given to the idea by a large group of indifferent village officers whom I met in conference. It struck me that they felt with delight that they were getting something for nothing—and something which, they little expected, i.e., the absolute recognition of hereditary right in the appointment and succession of village officers in this district.

2. Prima facie, there is a good deal to be said for the hereditary principle as suited to the oriental mind and some such sentiment still lies at the back of my mind; but after all, the hereditary principle is already recognized as a very strong factor *ceteris paribus* in deciding these village officers' appointments and it lies on the mover of the Bill to show that the present system obtaining in his district has failed to give satisfaction to Government and the people.

3. Admitting some of the arguments in favour of the Bill as found in the Objects and Reasons, I find that on administrative grounds the proposal is at bedrock, unsound for it will limit suddenly and severely the sphere of selection, for these village officers' appointments in this somewhat backward district at a time when it is most necessary to improve the position and education of the village officers who, after all, are the main guard of the land revenue administration. This object will certainly not be achieved by limiting the field of selection to the families of the present office-holders. At Krishnagiri—rather a backward taluk—the village officers at a conference with me enthusiastically welcomed the ideas of the Bill. But those who know the deficiencies of the village munsifs and the frailties of the karnams deprecated the Bill as ultimately disadvantageous to Government.

4. The acid test which Government will presumably apply to the proposed Bill is whether it makes for greater efficiency of administration and I think even admitting the present difficulties, the arguments from sentiment and prejudice the Bill will fail as it cannot be said to make for greater efficiency.

5. The appeals, the difficulties of selection and the forensic mud-flinging and manœuvres will no doubt still continue under the present system but these features are said to be not unknown amongst village officers and their relations in districts where these appointments go by hereditary succession and that system is not an ideal one and has its own difficulties. I therefore have decided to part company with my Revenue Divisional Officers on this matter and on further consideration consider that no sufficient case has at present been made out for the alteration of the existing system in the interests of Government.

(3)

Letter from P. C. DUTT, Esq., I.C.S., Collector of Trichinopoly, dated the 29th June 1927 D. Dis. No. 4401.

I have already submitted a report on the Bill expressing my opinion in my D. Dis No. 2707, dated 25th April 1927.

2. Regarding the attitude of public and the ryots towards this Bill, the Revenue Divisional Officers who were consulted report divergent views. The Tahsildar of Musiri reports that the ryots are in favour of the hereditary principle, The Revenue Divisional Officer, Ariyalur, reports that, so far as he has consulted the ryots and the educated public, they are in favour of the Bill. The Deputy Tahsildar of Ariyalur reports that the ryots being mostly illiterate are indifferent to the Bill. The Revenue Divisional Officer, Trichinopoly, reports that there is no pronounced opinion either for or against the Bill. I agree with him and the attitude of the public may be taken as one of indifference, the village officers being generally in favour of the Bill.

Fort St George, August 3, 1927
(G.O. No. 2948, L. & M.).

No. 1036.—Clauses (b) and (c) of sub-section (4) of section 9 of the Madras Local Boards Act, 1920, empower presidents of district and taluk boards to appoint members of taluk and union boards respectively. There is however no prescription in the Act as to the period within which the appointments should be made. In reply to an interpellation in the Legislative Council in March last the Government undertook to consider the question of fixing a limit of time, so that delays in filling vacancies may be obviated. After careful consideration the Government propose to issue the rule contained in the appended notification which will be published in the *Fort St. George Gazette*.

The Government regret the necessity to provide prosecution as the sanction of the rule. They do not however suppose that when the rule exists it will be necessary to resort to this extreme course for the enforcement of it.

APPENDIX.

NOTIFICATION.

The following draft of a rule which the Local Government propose to make in exercise of the powers conferred on them by clause (b) of sub-section (2) of section 199 of the Madras Local Boards Act, 1920, is published as required by clause (a) of section 200 for the information of all persons likely to be affected thereby. Notice is hereby given that the said draft will be taken into consideration by the Local Government six weeks after the date of publication of this notification.

Draft Rule.

The appointment of a member to a $\frac{\text{Taluk Board}}{\text{Union Board}}$ under $\frac{\text{clause (b)}}{\text{clause (c)}}$ of sub-section (4) of section 9 of the Madras Local Boards Act, 1920, shall be made by the $\frac{\text{President, District Board}}{\text{President, Taluk Board}}$ not later than sixty days after the occurrence of the vacancy.

The President of the $\frac{\text{Taluk Board}}{\text{Union Board}}$ shall report the vacancy to the $\frac{\text{President, District Board}}{\text{President, Taluk Board}}$ not later than seven days after the occurrence thereof.

Any president who commits a breach of this rule shall be punishable, on conviction, with fine which may extend to one hundred rupees.

Timely notice will be given to the candidates concerned.

If a candidate who belongs to one Indian State selects a centre in another Indian State, he should submit his application for admission to the examination through the educational authorities of the State to which the centre selected belongs, so that they may have an opportunity of disallowing the selected centre and directing the candidate to select a centre in the State of which he is a resident. When objection is not taken, candidates may assume that their names will be registered for examination at the centres mentioned by them in their applications.

* Lower grade only. † Higher grade only.

(*a*) Candidates coming up in Botany (Special) should state in their applications whether they bring up this subject as one of the subjects required for the diploma for Chemists and Druggists.

(*e*) Candidates coming up in Typewriting must bring with them their own typewriters—the Remington, New Model Remington No. 12, Remington Portable, Yost, New Century, Smith Premier, Densmore, Empire, Underwood, Oliver American, Standard Folding, Stearns Visible, Sun Typewriter, Salzer, Fox Visible, Victor Typewriter Model Nos. 2 and 10, Monarch, Woodstock Standard Visible, Noiseless, L.C. Smith & Bros., Underwood Portable, Royal Standard No. 10, Mollé, Mercedes, Ilex Visible, Remountable, Elite, Imperial, British Empire or Corona Foldable No. 3 Typewriter. The candidates will be examined in *batches*, but at least every four candidates for the *Lower* grade, and at least every two candidates for the Higher grade must have one machine among them.

(*f*) Candidates for the Higher grade examination in Design should state in their applications whether they select to be examined in "Interior decoration" or in "Cabinet-making and Wood carving" or "Metal Work" or in "Pattern designing for textile fabrics" or in "Gold and Silversmith's work".

(*g*) Candidates bringing up Painting (Higher grade) should state in their applications whether they desire to be examined in oils or water colours in the *First* and *Third* tests.

8. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination named in his application, *which must invariably be the place where he is employed or ordinarily resides or should it not be so under the place nearest to it where the examination is held.* A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned at any other place if he is satisfied that not fewer than *fifty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 15th August. Ordinarily, however, only one place will be constituted a centre for each district.

5. The Oral and Practical examinations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

N.B.—To guard against disappointment in the case of such of the Oral and Practical examinations as may be held before the Written examination, candidates are recommended to refer to Part I-B of the *Fort St. George Gazette* from time to time.

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognized by the Director of Public Instruction, Madras, or by the Director of Industries, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades in them brought by their *pupils*.

N.B.—Heads of institutions recognized for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical examinations.

8. All pupils coming up from the same institution must submit the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no application of any *private* candidates being enclosed with these applications.

9. Each candidate must, wherever the syllabus requires it, submit, before the 31*st August*, the necessary drawings, plans, surveys, field books, estimates, or other "certified works." Each of the drawings, etc., submitted must have entered on it the name of the candidate, the subject and grade of examination for which he appears and the centre at which he appears, and must be certified to be his own unaided work by the head of the institution or office to which he belongs, by an officer of the Public Works Department not below the rank of Supervisor, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any Railway Company.

Candidates are specially warned that no certified works will be valued by the examiners unless the certificate of authorship is in each case quite satisfactory and specifies clearly the period of time occupied in the execution of such work and unless the examiners are satisfied as to the identity and qualifications of the persons granting the certificate. Further, if any suspicion attaches to any certified works submitted by pupils from technical schools, the Commissioner will be compelled to recommend to the Director of Public Instruction or to the Director of Industries the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners, will be liable to have their examination invalidated and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawing, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (i.e., the drawings, etc., for a number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be sent in one and the same roll. *Also on the outside of each roll for each subject each candidate should enter the following particulars in ink*:—

(1) Name of candidate,
(2) Place of examination,
(3) Subject,
(4) Grade, and
(5) Total number of drawings in each roll.

As the application has to be kept in the office and as the drawings, etc., have to be forwarded to the examiners, the application itself should be sent in a *separate* cover and *not rolled* up with the drawings, etc.

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, etc., submitted will on no account be returned.

10. Candidates must send in their applications made out in English on *printed forms so that they may reach the Commissioner's office on or before the 31st August, after which date no application will be received.* Only one form of application should be used by each candidate, although he may bring up several subjects and come up for different grades.

Candidates who are residents of Madras should apply for application forms at the office of the Commissioner for Government Examinations, Cathedral Post Office (Madras), and not to the Collector of Madras.

N.B.—No notice will be taken of any application from candidates in the mufassal requesting to be supplied with application forms from this office.

12. The following is the scale of fees to be paid by candidates for admission to the examinations:—

	Lower	Higher.
	Rs.	Rs.
For each subject ..	6	12

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

13. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Imperial Bank of India, and the receipt given by the Treasury Officer or the Imperial Bank of India attached to the application, which must in

every case reach the Commissioner's office on or before the 31st August. *No re mittance will be free be received in the Commissioner's office whether sent in cash or by Post Office order. No application will be registered unless it reaches the Commissioner's office by the date prescribed.*

This latter list should be forwarded in this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to Headmasters on application.

14. Each application should be sent direct to the undersigned, post-paid, superscribed and addressed as follows, the receipt for the fee paid *being securely fastened to it.*

16. *The fee paid will, in no case whatever, be refunded, nor will it be reserved for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the rules carefully and satisfy themselves, before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the Written or the Oral and Practical examinations.*

Bill No. 11 of 1927.—Indian Fisheries (Madras Amendment) 49

Bill to be introduced in the Council of the Governor of Fort St George for the purpose of making Laws and Regulations.

Under rule 18 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

BILL No. 11 OF 1927

A Bill to amend the Indian Fisheries Act, 1897, in its application to the Presidency of Madras.

Preamble. WHEREAS it is expedient to amend the Indian Fisheries Act, 1897, in its application to the Presidency of Madras for the purposes hereinafter appearing.

IV of 1897.

AND WHEREAS the previous sanction of the Governor-General has been obtained to the passing of this Act: It is hereby enacted as follows:—

Short title and extent. (1) This Act may be called the Indian Fisheries (Madras Amendment) Act, 1927.

(2) It extends to the whole of the Presidency of Madras

Amendment of sub-section (3) of section 6.

2. In sub-section (3) of section 6 of the Indian Fisheries Act, 1897 (hereinafter referred to as the said Act)— IV of 1897

(i) after the words "prohibit or regulate" the words "either permanently or for a time or for specified seasons only" shall be inserted, and

(ii) for clause (e) the following clause shall be substituted, namely :—

"(e) the dimension and kind of the contrivances to be used for taking fish generally or any specified kind of fish and the modes of using such contrivances."

Amendment of sub-section (4) of section 6.

3. For sub-section (4) of section 6 of the said Act, the following sub-section shall be substituted, namely :—

"(4) Such rules may also prohibit all fishing in any specified water except under a lease or licence granted by Government and in accordance with such conditions as may be specified in such lease or licence".

Addition of a new section 8.

4. After section 7 of the said Act, the following section shall be added :—

"8. All rents, fees and other moneys payable to Government on account of fishery leases and licences granted by them may be recovered in like manner as if they were arrears of land revenue :

"Provided that nothing in this section shall be deemed to give Government in respect of the said rents, fees and moneys any priority or charge to which Government are not otherwise entitled under the law."

STATEMENT OF OBJECTS AND REASONS.

The Bill contains three amendments to the Indian Fisheries Act (IV of 1897). The first of the-e proposed amendments which relates to section 6 (3) is intended to give wider powers to the Local Government to regulate the means and modes of using contrivances to take fish so as to secure especially protection of immature food fish at particular seasons and times as it is apprehended that their indiscriminate capture will lead to depletion of fish in public waters.

2. The second amendment is proposed with a view to preventing fishing by poachers. The fisheries in several waters of the Presidency are the property of the Crown and are gradually being improved by the introduction at considerable cost of better kinds of fish. The right to collect the fish is annually leased out by Government. Section 8 (4) of the Act contemplates only a

total prohibition of fishing for a period not exceeding two years at a time. Any notification issued under this section will therefore exclude even the lessees from enjoying the rights under leases granted to them. It is therefore proposed to regulate fishing by the grant of a licence or lease while securing total prohibition against poachers.

3. The third amendment proposed in the Bill is in regard to the recovery of fishery rentals from defaulting lessees. These rentals are now recovered under the Madras Revenue Recovery Act of 1864. As the legality of proceeding under that Act has been questioned, it has been found necessary to provide specifically that all fishery rentals and fishing licence fees shall be recoverable as if they were arrears of land revenue.
